**Hydrotone**: this water workout includes calisthenic movements with variations of upper and lower body exercises. You will improve your cardiovascular fitness, muscular endurance and flexibility. The instructor will use creativity to keep the pace moving and the workout interesting. As a participant, you determine the intensity by using the water as your resistance. All levels welcome. 1hr class.

**Aqua Fit**: this is a medium intensity aquatics class focusing on strength, balance and stretching for a fun and efficient full body workout. All levels welcome. 45 minute class.

**Aqua Kickboxing**: This high energy water workout combines kickboxing movements with variations of upper and lower body resistance moves. Designed to build stamina and lean muscle as well as improve balance, coordination and flexibility all while burning calories. You determine your own intensity. All levels welcome!

**Aqua Walking**: 30 minutes of moving through the water to improve strength, balance and coordination while gently getting the heart rate up.

**Liquid Fitness**: Music driven tabata interval training which cycles through periods of work followed by brief rest that will challenge the entire body. All levels welcome. Work at your own level of intensity.

**Mindful Water Exercise**: Combination of cardio, balance, core and strengthening incorporating the “7 foot positions and 6 arm motions of life” with AiChi- mindful efficient flowing progression of moves to improve core, balance and flexibility.
